DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art teaches a semiconductor chip carrier with a cavity where a chip having bonding pads, solder balls having an un-rounded portion, vias, redistribution traces, and first and second dielectric layers, and where the chip is positioned in the cavity of the chip carrier. The prior art does not teach the above teachings in combination with the first and second dielectric layers being made out of polyimide or BCB as described in the written arguments filed on 12-2-06. This combination has been found non-obvious thus allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1,6-12,14,15,17-20,22-26,28,29,31-36,38,40 and 42-44 are allowed.
